Russ,
I made the edits recommended by Palmer and a few more in the attached.
The one missing piece of information from this presentation is our measure of effectiveness – WT-3. I understand this is a background briefing and the focus has been on efficiency but we should also be highlighting our value added whenever possible as well.
I added the FY16 numbers to the EPA Review slide – now number 16.
I think it is looking pretty good now but is still missing a graphic for Donlin.

Importance: High

All: I will be presenting to Lee & Mike on the 404 program and providing a brief update on hot topics, aside from BB. Please take a look at my attached slides and let me know if you have any recommendations. Thanks much – would be great to get feedback by end of week if possible.

Mindy/Larry – I will bring hard copies to our general meeting later today.

Thanks
